TECHNICAL SKILLS

Programming

Python | SQL

AI

Prompt Engineering

Custom GPT

Tools

GitHub | VS Code | Ms Excel

Web

HTML| CSS | Javascript

CERTIFICATIONS

- Prompt Engineering
- Tayana Academy
- Custom GPT
- Tayana Academy
- Project GPT - Tayana Academy
- Google Gems-
- Tayana Academy
- Problem Solving in Python
- CIT,Chennai
- Basics of SQL - SkillRack
- Data Analytics Job Simulation
- Deloitte Australia

ACHIEVEMENTS

- **1st Prize**
- Smart E-Fuel Station
E Gadget Project Expo
- **3rd Prize**
-Agricultural Monitoring System
Scifari'23
- **1st Prize**
-LTspice Technical Presentation
Decibel Club

LANGUAGES

English | Tamil

PROFESSIONAL SUMMARY

Final-year Electronics and Communication Engineering graduate with hands-on experience in AI, Python, Prompt Engineering, and Data Analytics through projects and internships. Seeking an entry-level AI role to apply my skills and contribute to innovative AI solutions.

EDUCATION

BE. Electronics and Communication Engineering

May 2026

IFET College of Engineering

CGPA: 8.52/10

PROJECTS

AI-Based Disaster Monitoring System

Apr 2026

Python | YOLOv8 | Streamlit | OpenCV

- Developed a real-time AI-based disaster monitoring system using dual YOLOv8 models to detect and classify disasters from satellite and drone imagery.
- Implemented automated image monitoring, interactive dashboard visualization, geospatial mapping, structured logging, and SMS alerts for real-time disaster awareness.

Realtime Street Lighting System

Dec 2024

8051 Microcontroller | Embedded C | IR Sensors | Relay Module

- Developed a motion-activated street lighting system using an 8051 micro controller and IR sensors to automatically control street lights based on vehicle movement.

Real-Time Coal Mine Monitoring and Alerting System

Dec 2023

Arduino Uno | IoT | Bluetooth | MQ-2 | LM35

- Developed an Arduino Uno based real-time monitoring system to detect hazardous gas leakage, temperature variations, and fire in underground coal mines using multiple sensors.

INTERNSHIPS

Java Full Stack Developer Intern

Aug 2025 - Sep 2025

VEI Technologies

- Developed Java-based web applications and collaborated on full stack development tasks.

Web Development Intern

Jun 2025 - Jul 2025

Cognifyz Technologies

- Built responsive web pages using HTML, CSS, and JavaScript while working on real-world web development tasks
